

Champion

The love and passion for the soccer games and the World Cup 2010 in South Africa inspired Bucovaz, creators of inventive objects in wood, to give life to a meaningful collection of tables of which the Champion is a sample.

The Champion is a small table with rounded or oval glass top and a wooden central post shaped in the form of a soccer-ball, available in various combinations of wooden essences: ash and walnut stained ash, ash-wood and amazakoue, bleached ash and black aniline lacquer. The table top and the base are extra-clear tempered glass.

Innovative, passionate, the Champion coffee table may be set both in a modern

or classic living room.

Bucovaz do not ask any minimum purchase to order the Champion table, which has the following dimensions in cm.:

H48 - Ø 100 or W105 - D68
