

B32 Swivel

B32 Swivel chair is made with sateen steel base and chromed piston for revolving mechanism, while the ergonomic shell is in shiny nylon available in white, brown, black or red.

The design of Robby and Francesca Cantarutti here is interpreted as meeting room or office guest chair or as fashionable dining room chair, with the shiny shell mounted on a central revolving post standing on a square steel base, in a combination emphasizing the bright design and the neat, straight lines.

The B32 Swivel chair can be matched to all the other chairs of the same B32 family and to the tables LA, Voilà and Web produced by the same

manufacturer, for an elegant and stylish result.

This ingenious and pleasant chair is CATAS tested for resistance to changes of temperature according to UNI 9429/89 standards.

Lead time is normally 3 weeks, the chair is delivered singly packed complete with assembling kit and clear instructions.

Armet recommends to avoid use of abrasives on the shell surface to keep the shine.

Sizes of the chair are: H82 W57 D55 seat height 46 - seat depth 50
