

S'ims

Wish you were here! This is what you will be thinking after seeing the S'ims sofa. Designed by Simone Micheli and presented during the 2006 Milano International Furniture Fair, the S'ims sofa represents the essence of minimal elegance, united to the comfort and the inspired creative mood proper to Adrenalina.

Charming as it looks, this sofa gives you the comfort of a wood-structure stuffed with expanded polyurethane and fiberfill, seating cushions held with woven elastic belts and a back made with lacquered or natural curved wood, that is fixed in the seat apparently wedged in an opposite slot; peculiar to the S'ims minimal sofa, the backrest remains individual in all the

seat combinations: it is available with single, two or three seats.

To enrich the beauty and comfort of your living room, you can easily combine the sofa with pouf and/or table from the same line.

For any product Adrenalina line, you will be given the opportunity to choose your favorite color and cover from the options available in the Pattern book Adrenalina 2008. A marvelous choice for every need.

Upon request the sofa is produced according fireproof standards.

For the best maintenance of this product we suggest different cleaning depending on the cover: water cleaning, dry cleaning, cleaning with humid sponge, as the covers are not removable.

The S'ims sofa is NOT AVAILABLE in the US market.

Production times are normally 30 days from order confirmation and the S'ims sofa is delivered assembled in a single package.

Dimensions: H80 W106-179-252 D80 , seat height 40 and seat depth 55. The pouf is just like the single-seat version, only with no backrest.
