

Hollywood/953 bench

The easy lines of an unique design and the elegance of a creation conceived by Studio Ciani are combined together in this fine piece created for Trabaldo: the Hollywood bench.

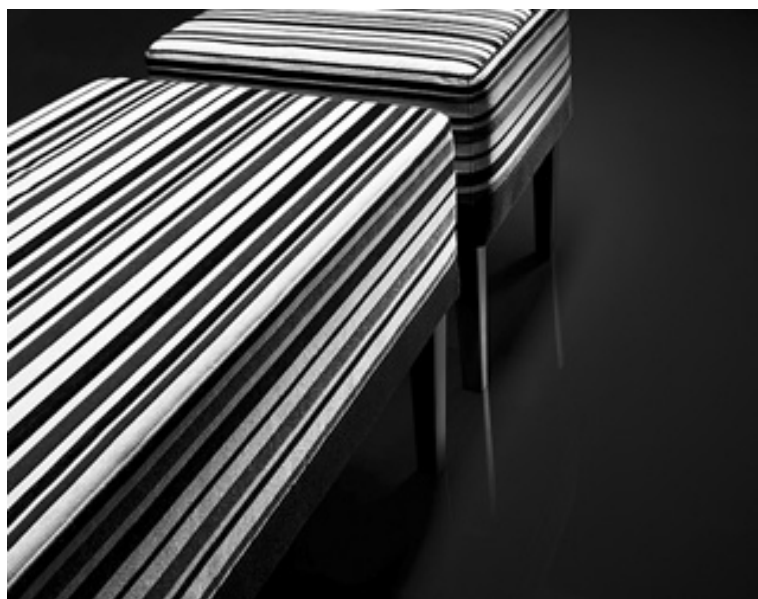

Presented in 2008 at the Milano International Furniture Fair, this product will make any location special. It is a precious décor for the stylish entrance of a cocktail lounge or a night club, as much as in the relaxing hall of an agriturismo, a luxury hotel or a beauty spa. Perfect to embellish the waiting area of an exclusive location as a golf club or a prestigious resort, as much as to make even more precious a managerial environment like

an office or an assembly room. Ideal to fill the space in a fashion store, or a mall.

If you choose the Hollywood bench for your living room, you can decide to combine it with other items from the same collection, as the Hollywood table, sofa, chair, armchair, pouf or stool.

This bench has a silver lacquered, chromed or satin chromed frame. The structure is supported by squared chromed legs. The seat is padded and upholstered to make it comfortable, and to make it also practical for cleaning, covers are completely removable, and made in fabric or leather.

Available dimensions for the Hollywood bench are: H40 x W140 x D40 in centimetres and it is delivered in about 25- 30 days.No minimum purchase required
