

## Ata

It is a pleasure to introduce to you Ata sofa, stunning interpretation of modern furniture art produced by Adrenalina, destined to strike imagination and eye, whose curves and lines pleasantly recall the spirit of 60's and 70's.

Presented for the first time during 1999 edition of Abitare il Tempo, furniture exhibition in Verona, on design from Stefano Micheli, Ata sofa is made with solid wood structure stuffed in fire retardant expanded polyurethane and fiberfill; the sateen aluminum feet finish in a curious semi sphere of retro taste.

Cushion lays on weaved elastic straps and is covered in fabric or leather, customizable in an incredible variety of choices from Adrenalina Pattern Book 2008.

A particular detail to be noticed is the side, a curvilinear shape that flows continually from the back, skims the floor and forms the armrests like a overturned giant comma.

The unusual forms and the combination with coffee table and armchair from the same range give Ata sofa a great versatility that allows decoration in modern residential living rooms, in hotels, fashion shops, lounge areas and guest areas. Adrenalina suggests it best equips your home theatre area, by virtue of Ata's comfort and innovating style.

Available in 2 or 3 seats. Ata sofa can be ready for shipment in about 40 days from order, without minimum quantity. Maintenance is easy, depending on the upholstery you can either dry clean it, or use water or a damp cloth.

NOT AVAILABLE for US market.

Sizes in cm. of the 2 seater sofa are H90, W147, D96, seat height 45.
