

Stone

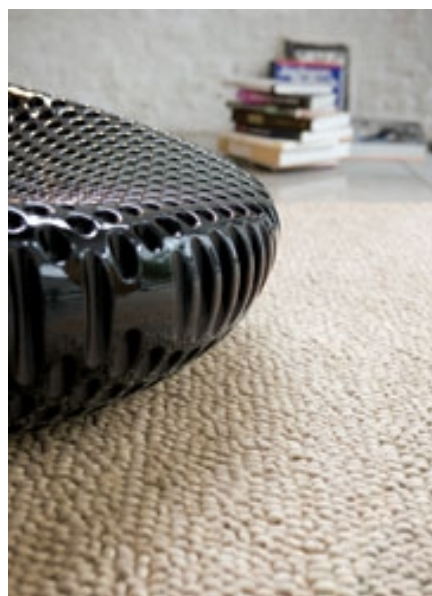

A thick weft of woollen knots resembling an expanse of flat pebbles by a river bank, the thick and warm Stone Wool rug stands out from the rest with its rough and unconventional class.

Natural colors and nuances make the Stone carpet a must- have in any interior, beige, black or grey have a go practically wherever.

Available on stock in the size of 170x240 cm or in 200x300 cm, the Stone carpets decorate and finish the room in the private homes or in the most diverse public location with unmistakable style and elegance.

100% woollen fleece and bottom covered in cotton, latex spreaded.

Dhesja usually have the Stone carpets on stock, so the lead times are quite short.
