

London P182

Belca is specialised in the production of furniture for community, and on this specializations a very stable reputation is built. A product of the technical staff in Belca, set deep in the manufacturer's history, is an evergreen: London P182 is a waiting area bench that deserves a mention.

Nicely shaped out of seat and back in pierced steel sheet hinged to a frame in steel tube, lacquered in black or aluminum thermosetting epoxy powders the London P182 bench has its natural collocation in waiting areas such as train or tube stations, office guest areas,

airports, hospital halls or bars and coffee bars, or conference halls as among the options Belca offers the writing tablets.

The seat and back are available in various colors, equipped on demand with armrests. The bench can host two to five seats, if with the 40x40 table the seats have to be reduced of one .

Matching to the chair Iron S48, it is a very reliable piece with extended durability and solid values that can be light-minded chosen in the public places visited by many people and stand the tests of time and tearand wear without losing an ounce of their integrity.

The London P182 bench is delivered assembled in about 30 days from order and with no minimum purchase quantity,

The dimensions of the London P182 waiting area bench are of course fixed in H85 and D45, seath height 45, while the maximum extention in W is 260, with 5 seats.
